## **Currently**

At this moment of time I am currently in my second year at Cardiff metropolitan university studying software engineering. Throughout my year and a half I have learnt a number of different aspects of a programming such as the basics of a number of programming languages (HTML, CSS, JavaScript, Java, Visual Basic, SQL), the different methods of developing new application (Agile and RAD) and working in groups to solve problems by creating algorithms and designing the solution in the language of our choice.

## **Volunteering**

I am currently designing and creating a website for a local charity called PRAID (Peterstone Residents Against Inappropriate Development). To create their website, I am using a very popular open source CMS called WordPress. I am using a number of languages to create the site (HTML, CSS, PHP and JavaScript). I'm in the process of creating a custom theme from scratch and possible create a plugin for the site.
